COMPANY CAPABILITY LIST

1. Introduction

This document contains a list of all those products which are installed in civil registered aircraft, engines or propellers, for which Meggitt Avionics has a Production and Maintenance capability.

This document is an associate document to the Meggitt Avionics Maintenance Organisation Exposition, APP02 CAA, within which this document is referenced.

The procedures for the control and maintenance of this document are promulgated in Section 1 of the Maintenance Organisation Exposition. Any changes to this capability list shall be recorded on the Capability List Amendment Application, Form CAS 1362, see Annex A, and forwarded for approval to the applicable Competent Authority.

Maintenance Instructions are routinely Component Maintenance Manuals and Service Bulletins produced by Meggitt Avionics as the Design Authority. Instructions may be in the form of Production Data as produced for the 21G manufacturing operations assessed as appropriate for carrying out maintenance operations.
